

EDUCATION

COLLEGE EDUCATION - Sri Eshwar College of Engineering	B.Tech(IT) 8.5(IIIrd -sem)	2024-2028
SCHOOLING – Thiruvalluvar Higher Secondary School	HSC 88.3 %	2022-2024
SCHOOLING -- Thiruvalluvar Higher Secondary School	SSLC 84.2%	2021-2022

INTERNSHIP EXPERIENCES

MERN Stack | iGENUINE LEARNING [LINK](#) **2025**

Full-stack web application featuring JWT authentication, admin/user role-based access control, complete book CRUD operations (Create, Read, Update, Delete), lending system with due date tracking, real-time inventory management, and responsive UI with protected routes. Includes Axios interceptors for automatic token handling and Thunder Client API testing for backend validation.

SKILLS ACQUIRED:

Frontend : React, React Router, HTML, CSS, JavaScript

Backend : Node.js, Express.js, JWT Authentication, CORS

Data Base: MongoDB ,MySQL

Tools: Thunder Client (API testing),VS Code

PROJECTS

Intelligent Content Moderation System	Github - Link 1 Link 2 Link 3	March 2026
Tech Stack: React, Django (REST API), Toxic-BERT (HuggingFace), NSFW Image Detection, OpenCV, Whisper		
Developed an AI-powered content moderation system that analyzes text, images, and videos in real time to detect harmful or inappropriate content before publishing.Ensures a safe digital environment by automatically filtering unsafe content and flagging it for review using machine learning techniques.		
Smart Voting System – Secure & Efficient Biometric-Based Voting	Github - Link 1 Link 2	October 2025
The Smart Voting System is a secure offline voting solution that uses QR code scanning and biometric fingerprint authentication through a single POS-style device for voter verification. It ensures real-time authentication, local data storage, and a user-friendly interface for smooth voting in remote and high-traffic polling stations. Built with a React frontend, Django backend, and SQLite database.		
Mr.CFO – ML-Based Financial Intelligence Platform	Github - Link 1 Link 2	August 2025
Built a financial management system for medium enterprises to track revenue, profit/loss, and expenses, integrating Isolation Forest for anomaly detection and XGBoost for forecasting using a React frontend and Flask backend.		
AgroConnect – AI-Driven Smart Farming Platform	Github - Link 1	July 2025
Built an AI-powered farming solution that offers irrigation scheduling, yield prediction, market trend analytics, Crop advisory System and government scheme discovery using a full-stack architecture with integrated machine learning models		

PARTICIPATION

Finalist in Agentica 2.0, conducted by Indian Institute of Infomation Technology , Sri City	2026
Finalist in NextGen ML Hackathon (24hrs), held at Hindustan College of Engineering	2026
Finalist in DataXScape (24hrs), held at Panimalar Engineering College	2026
Secured First Place in Creatathon,held at sri eshwar college of Engineering	2025
Finalist in Hack The Horizon 2.0 ,held at VIT University	2025

CODING PROFILES

Leetcode - Contest Rating:1,464| Global Rank: 475,189| Problems Solved : 135+ | Profile Link:[LINK](#)

Codechef - Global rank: 190534 |Solved 188+ problems| Profile Link: [LINK](#)

Skill rack - Rank: 29748| Problems Solved : 880+| Profile Link: [LINK](#)
